

Providing innovative HVAC solutions, parts and service across the state of Michigan through exclusive representation of over 30 original equipment manufacturers

O X Y G E N 8

Daikin Applied

- Air-Cooled Chillers: Rotary Screw, Rotary Scroll with Integral, Low-Ambient Free Cooling
- Water-Cooled Chillers: Oil Free Magnetic Bearing Centrifugal, Oil-Lubricated Centrifugal, Rotary Screw, Rotary Scroll
- Air Cooled Condensing Units
- Indoor/Outdoor Semi-Custom Air Handling Units
- Water Source Heat Pumps
- Vertical Self-Contained A/C Units
- Fan Coil Units
- Unit Ventilators
- Semi-Custom HVAC Systems:
 - Configurable to Match Existing Curbs
 - Variable Speed Compressors
 - With or Without Packaged Controls
- Dedicated Outdoor Air Systems
 - Make-up Air Units
 - Energy Recovery
 - Water Heat Pump or DX Condensing Unit
 - With or Without Packaged Controls

Daikin VRV & Light Commercial

- Variable Refrigerant Volume (VRV)
- Air & Water Cooled Condensers
- Ducted & Duct-Free Cooling Units
- Single & Multi-Zone Split Systems
- Packaged Rooftop Units
- Intelligent Rooftop Units
- Intelligent Building Management Systems

75F

- IoT-Powered Building Management Solution (BMS)

Air Flow Equipment

- Custom Air Handling Units
- Knocked-Down Units
- Made in Michigan

Brasch

- Electric Duct & Cabinet Unit Heaters

Broad

- Direct, Indirect-Fired, Steam & Hot Water Absorption Units
- 60 to 3,000 Tons

Changeair

- Vertical Unit Ventilators: Hydronic, Gas, or Electric Heat
- Energy Recovery Unit Ventilators
- WSHP Unit Ventilators

ClimaCool

- Air & Water Cooled Modular Chiller Systems
- Water-to-Water Heat Pumps
- Heat Recovery Chillers

Compu-Aire

- Computer Room A/C (CRAC)

CORE

- Sensible/Latent Energy Recovery Cores

Dadanco

- Chilled Beams
- Induction Units

Global Plasma Solutions

- Enhanced Filtration using Needlepoint Bipolar Ionization

Hays

- Automatic Balancing Valves
- Piping Packages for Fan Coil Units, Unit Ventilators & Heat Pumps
- Custom Hose Kits
- Pressure Independent Control Valves

Heat Pipe Technology

- Energy Recovery & Dehumidification Heat Pipe Systems

Innovent

- Custom Air Handling Units with Energy Recovery & Self-Contained Refrigeration
- Make-up Air Units
- Ice Rink Dehumidification
- Natatorium Environmental Control Systems

Johnson Marcraft

- Air Rotation Systems
- Direct/Indirect Gas-Fired Heating & Ventilation Systems
- Make-up Air Units

Lennox

- Commercial Rooftop Units
- Furnaces & Condensing Units

Motivair

- Process Air-Cooled, Water-Cooled Chillers with Integral Low Ambient Free Cooling
- Closed Loop Cooling Systems

Neptronic

- Steam-to-Steam Humidifiers
- Pressurized Steam Humidifier Manifolds
- Electric-to-Steam Humidifier Generators and Manifolds
- Gas-to-Steam Humidifier Generators

Omega

- Vertical Stack Heat Pumps with Integral Energy Recovery

Oxygen8

- DOAS with VRV Integration
- Energy Recovery Ventilators

Q-Pac

- Fan Array with Plenum Fans/EC Motors
- New & Retrofit Applications

Reznor

- Gas Heating Equipment
- Make-up Air Units

Riptide

- Cloud-Based Building Portfolio Management System

Seasons • 4

- Direct Replacement HVAC Systems (Multi & Single Zone)
- Custom Air Handling Systems

SEMCO

- Ice-Rink Dehumidification Units
- Custom Air Handling Units with Integral Energy Recovery Wheels for High Outside Air Application
- Passive Dehumidification Systems
- Packaged Energy Recovery Systems
- Chilled Beams

Seresco

- Commercial & Residential Natatorium Dehumidification Systems

Sigma

- Hydronic Finned Tube Radiation
- Convectors & Unit Heaters
- Radiant Wall Panels
- Radiant Ceiling Panels
- Cabinet Unit Heaters

Steril-Aire

- UVC Replacement Emitters
- High Energy UVC Germicidal Solutions

Systemair

- Energy Recovery Air Handling Units

Valent

- Packaged Rooftop Units for High Outside Air Application
- Compact Footprint Energy Recovery Units
- Fan Array Solutions

Yaskawa

- Variable Frequency Drives
