

THERMALNETICS

Innovative HVAC Solutions | a member of **DAIKIN** group

Providing Premier HVAC Equipment Solutions Across the State of Michigan

ThermalNetics is your trusted partner to help with every step of the design, selection, installation and operations processes. Our experienced sales engineers provide excellent customer service and premium equipment recommendations from the best manufacturers.

- Daikin

- Air-Cooled Chillers: Rotary Screw, Rotary Scroll with Integral, Low-Ambient Free Cooling
- Water-Cooled Chillers: Oil Free Magnetic Bearing Centrifugal, Oil-Lubricated Centrifugal, Rotary Screw, Rotary Scroll
- Air-Cooled Condensing Units
- Indoor/Outdoor Semi-Custom Air Handling Units
- Water Source Heat Pumps
- Vertical Self-Contained A/C Units
- Fan Coil Units
- Unit Ventilators
- Semi-Custom HVAC Systems:
 - Configurable to Match Existing Curbs
 - Variable Speed Compressors
 - With or Without Packaged Controls
- Dedicated Outdoor Air Systems
 - Make-up Air Units
 - Energy Recovery
 - Water Heat Pump or DX Condensing Unit
 - With or Without Packaged Controls
- Daikin VRV & Light Commercial
 - Variable Refrigerant Volume (VRV)
 - Air & Water Cooled Condensers
 - Ducted & Duct-Free Cooling Units
 - Single & Multi-Zone Split Systems
 - Packaged Rooftop Units
 - Intelligent Rooftop Units
 - Intelligent Building Management Systems

• Grow Room Systems

Agronomics

- Custom Air Handling Units
- Knocked-Down Units
- Made in Michigan

Air Flow Equipment

- Cooling Towers
- Closed Circuit Cooling Towers
- Hybrid/Adiabatic Closed Circuit Cooling Towers
- Evaporative Condensers

Baltimore Air Coil Company

- Direct, Indirect-Fired, Steam & Hot Water Absorption Units
- 60 to 3,000 Tons

Broad

- Critical Process Air Handling Units
- Desiccant Dehumidification

CDI

- Vertical Unit Ventilators: Hydronic, Gas, or Electric Heat
- Energy Recovery Unit Ventilators
- WSHP Unit Ventilators

Changeair

- Rooftop screens and enclosures

Cityscapes

- Air & Water Cooled Modular Chiller Systems
- Water-to-Water Heat Pumps
- Heat Recovery Chillers

ClimaCool

- Field-erected cooling towers
- Pultruded fiberglass structures

Composite Cooling Solutions

- Sorbent Ventilation Technology, HVAC Load Reduction Modules

enVerid

- Submersible Motors & Control Boxes
- Water Pressure Multi-Stage Pumps & Packages
- Effluent Pumps

Franklin Electric

- Enhanced Filtration using Needlepoint Bipolar Ionization

Global Plasma Solutions

Hays

- Automatic Balancing Valves
- Piping Packages for Fan Coil Units, Unit Ventilators & Heat Pumps
- Custom Hose Kits
- Pressure Independent Control Valves

Heat Pipe Technology

- Energy Recovery & Dehumidification Heat Pipe Systems

Innovent

- Custom Air Handling Units with Energy Recovery & Self-Contained Refrigeration
- Make-up Air Units
- Ice Rink Dehumidification
- Natatorium Environmental Control Systems

Johnson Marcraft

- Air Rotation Systems
- Direct/Indirect Gas-Fired Heating & Ventilation Systems
- Make-up Air Units

Lakos Filtration Solutions

- Fluid filtration systems

MAS HVAC

- Indoor Side-By-Side
- Indoor Stacked
- Outdoor Side-By-Side

Motivair

- Process Air-Cooled, Water-Cooled Chillers with Integral Low Ambient Free Cooling
- Closed-Loop Cooling Systems

Neptronic

- Steam-to-Steam Humidifiers
- Pressurized Steam Humidifier Manifolds
- Electric-to-Steam Humidifier Generators and Manifolds
- Gas-to-Steam Humidifier Generators

Omega

- Vertical Stack Heat Pumps with Integral Energy Recovery

Oxygen8

- DOAS with VRV Integration
- Energy Recovery Ventilators

Q-Pac

- Fan Array with Plenum Fans/EC Motors
- New & Retrofit Applications

Tranter

- Heat exchangers.

Seasons • 4

- Direct Replacement HVAC Systems (Multi & Single Zone)
- Custom DX Rooftop Units

SEMCO

- Ice-Rink Dehumidification Units
- Custom Air Handling Units with Integral Energy Recovery Wheels for High Outside Air Application
- Passive Dehumidification System
- Packaged Energy Recovery System
- Chilled Beams

Seresco

- Residential Pool Dehumidification Units
- Commercial Natatorium Dehumidification Units

Sigma

- Hydronic Finned Tube Radiation
- Convector & Unit Heaters
- Radiant Wall Panels
- Radiant Ceiling Panels
- Cabinet Unit Heaters

Steril-Aire

- UVC Replacement Emitters
- High Energy UVC Germicidal Solutions

Systemair

- Energy Recovery Air Handling Units

Valent

- Packaged Rooftop Units for High Outside Air Application
- Compact Footprint Energy Recovery Units
- Fan Array Solutions

Xnrgy

- Custom DX Rooftop Units
- Custom Air Handling Units

Yaskawa

- Variable Frequency Drives
